PC meets Wireless Audio.

Enjoy digital high-quality sound at any time, anywhere and in any layout.

RS-WHP1U   RS-Link1

RATOC Systems,International

PC meets Wireless Headphone.

USB port — Wireless(up to 30 feet) — 2.4GHz ISM
Transmitter — Headphone (receiver)

USB Wireless Digital Headphone Set
RS-WHP1U

System Requirements: Windows XP, Me, 2000 and 98SE
MacOS X 10.1 or later, MacOS 9.2.1 or later

Enjoy DVD with vivid theater sound. Ideal for watching DVD, listening music at midnight personally. Don't wake up your baby, roommates or pets. Wireless headphone allows selfish listening position. Listen brilliant and rich sound in any style, at any time and anywhere. Patented headband(by Audio-technica) provides comfortable fit and soft-leather closed ear cushions provides better bass and isolation. Embedded rechargeable Li-ion battery allows long operation time around 11hrs. No more FM-analog transmitter. 2.4GHz transmitter provides clear sound without noise and cross talk. Enjoy clear sound with our headphone.

Features.
Headphone:
- Closed dynamic 53mm aperture driver for vivid sound.
- CCAW voice coil for accurate sound reproduction.
- Powerful Neodymium magnet.
- Adjustable comfortable headband(Patented by Audio-technica).
- Closed soft-leather ear cushion for better bass and isolation.
- Frequency Response: 20 to 20,000 Hz.
- 2.4GHz ISM band Wireless RF with AFH.
- Embedded DSP based SBC CODEC and D/A converter provide CD quality sound.
- Volume control buttons.
- Embedded Li-ion Polymer battery allows long operation(11hrs.).

Transmitter:
- 2.4Ghz ISM band Wireless RF with AFH. No more FM-analog transmitter. 2.4GHz digital transmission provides noise-free, clear and cross talk-free sound.
- USB Low-Power Bus-Powered device. Power consumption rate is below 100mA.
- Embedded DSP based SBC CODEC provides CD quality sound.
- Fully compatible with WindowsXP, 2000, Me and 98SE, MacOS X and MacOS 9.2.1 or later. Just Plug and Play, don't need to install driver software.
- Fully compatible with all Multi Media applications which support USB Audio device such as iTunes, Media Player, Real Audio, WinDVD…..

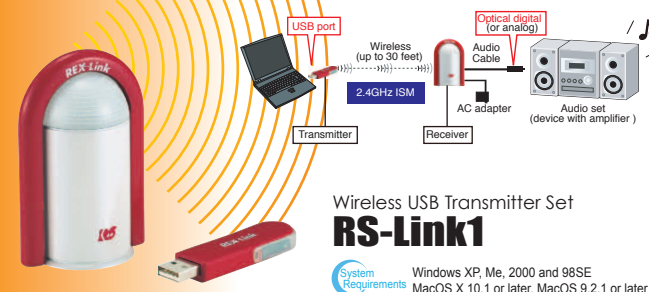

Easy to use.
Just plug USB transmitter to PC/Mac, and turn on headphone. And then, start iTunes , other application or playing back DVD.

Specification

Radio Frequency	2.4GHz(2.402-2.480GHz, ISM band)	
Effective Length	Approximately 30 feet	
Transmitter	USB input	USB1.1(Full Speed, 12Mbps)
	System Requirements	Windows XP, Me, 2000 and 98SE MacOS X 10.1 or later, MacOS 9.2.1 or later
Headphone (Receiver)	Type	Closed Dynamic
	Driver Unit	53mm, CCAW voice coil, Neodymium Magnet
	Sensitivity	98dB/mW
	Frequency Response	20-20,000Hz
	Power Source	Lithium Ion Polymer Battery (Rechargeable with AC adapter)
	Battery Life	Approximately 11 hours

Share PC sound with Hi-Fi audio system.

USB port — Wireless (up to 30 feet) — 2.4GHz ISM — Optical digital (or analog) Audio Cable
Transmitter — Receiver — AC adapter — Audio set (device with amplifier)

Wireless USB Transmitter Set
RS-Link1

System Requirements: Windows XP, Me, 2000 and 98SE
MacOS X 10.1 or later, MacOS 9.2.1 or later

Listen to music in selfish style with cable-free layout.
Lower power consumption, ideal for laptop PC/Mac on your side.
Are you satisfied with poor sound from PC speaker, Cassette boomer or portable audio device? If you have a good audio system, you should use it for PC sound. Optical digital audio output allows noise free true digital sound, embedded SBC CODEC keeps CD quality and reproduce excellent sound.
No more FM-analog transmitter. 2.4GHz transmitter provides clear sound without noise and cross talk. Enjoy PC sound in a living room in selfish style. Plug USB transmitter to PC, turn on receiver, audio system, select input device and select music on the PC. Hi-quality sound projects from the audio system and fills the room.

Features.
Receiver:
- 2.4GHz ISM band Wireless RF with AFH.
- Embedded DSP based SBC CODEC and D/A converter provide CD quality sound.
- Includes both analog stereo line-out and optic digital SPD I/F output.
- Small and compact design.

Transmitter:
- 2.4Ghz ISM band Wireless RF with AFH. The digital transmission provides noise-free, clear and cross talk-free sound.
- Low power consumption, below 100mA. Compliant with USB Low-Power device specification.
- Embedded DSP based SBC CODEC provides CD quality sound.
- Fully compatible with WindowsXP, 2000, Me and 98SE, MacOS X and MacOS 9.2.1 or later. Just Plug and Play, don't need to install driver software.
- Fully compatible with all Multi Media applications which support USB Audio device such as iTunes, Media Player, Real Audio, WinDVD…..

Easy to use.
Just plug USB transmitter into PC/Mac. Don't need to install driver software. Turn on the receiver, audio system, select input device and set volume control.
